Task Order No. 8

Gentlemen:

The subject Contract, dated 3 January 1967, was scheduled for completion on 2 June 1967. Deliverable items were delivered on 17 July 1967. Item (1) under the Deliverable Items Article of the Contract, the prototype print straightener, was returned to the Contractor in January 1968 because of non-compliance with Contract specifications. The Contractor was notified by the Contracting Officer's Technical Representative that the print straightener did not meet specifications and several adjustments were made to the equipment by the Contractor during the period subsequent to delivery and prior to return of same to the Contractor.

This letter is written to advise that unless the Contractor has satisfied its requirements under the subject Contract within forty-five (45) days from the date of this letter the Government may exercise its right, under Article 13 of Section D entitled Default, to terminate this Contract for default.

This letter in no way changes any of the terms and conditions of the subject Contract as amended.

Very truly yours,
